Output: 4.2V/4.35-800mA(x2) 8.4V-600mA(x2)

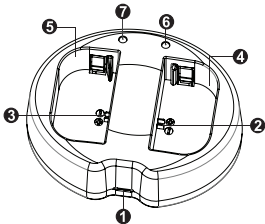

Input port: Micro USB

Size: 3 x 2.5 x 1 in (80 x 63.4 x 23.4 mm)

Weight: 1 oz (32 g)

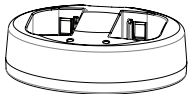

PARTS

Note: Images shown in this manual are for Canon LP-E6.

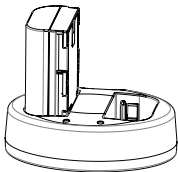

1. Micro USB port
2. Battery metal contact 1
3. Battery metal contact 2
4. Battery slot 1
5. Battery slot 2
6. Charging indicator light 1
7. Charging indicator light 2

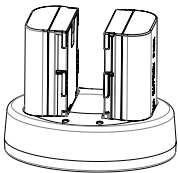

CHARGING INDICATION

The two indicator lights will flash on and off when the charger is plugged in and no batteries are charging.

When charging one battery, the corresponding light is red. When charging is complete, the light is green.

When charging two batteries, the corresponding lights are both red. When charging is complete, the lights are green.

CHARGING INDICATION

What's the difference between this charger and a standard charger?

This charger allows you to quickly charge two DSLR batteries at the same time, shortening the total charging time. With a standard charger, you can only charge one battery at a time.

When are the indicator lights red and green?

The lights are red when the batteries are charging. The lights are green when charging is complete.

Why is the charging speed slow?

The input of this charger is 5V 2A. If the output of your USB does not reach 5V 2A, then the charging speed may be slower.

WARRANTY

This product has a 12-month warranty from the date of purchase.
